

WOW

PERFECT PLASTER

GYPSUM PLASTER

100% WHITENESS & ECO FRIENDLY

Product Overview

WOW Gypsum Plaster is your ultimate solution for achieving smooth, durable, and flawless interior surfaces. Designed for homeowners, contractors, builders, and interior designers, this high-quality plaster delivers exceptional results with minimal effort, making it the preferred choice for any construction or renovation project.

Application Areas

- **Plastering**
Used in gypsum plaster to create smooth, even wall and ceiling surfaces.
- **Drywall Production**
Essential component in the production of drywall or plasterboard for constructing interior walls and ceilings.
- **Cement**
Acts as a retarder in Portland cement, controlling the setting time and preventing it from setting too quickly.
- **Mouldings and Decorative Elements**
Used to create intricate architectural mouldings, cornices, and other decorative elements.

Packaging

WOW Gypsum Plaster is available in **25kg & 40kg** packaging to meet the needs of both small scale and large scale projects.

Unique Selling Proposition

Flawless Finish

Fast Drying Time

Ease of Application

Durability

Eco Friendly

Key Benefits

- **Superior Aesthetic Appeal**
Create perfectly smooth surfaces that are ideal for modern, sleek interiors.
- **Time Efficiency**
With quick drying and easy application, WOW Gypsum Plaster saves time on construction and renovation projects.
- **Cost Effective**
Reduces both labor and material costs by minimizing waste and speeding up application time.
- **Versatility**
Suitable for a wide range of interior surfaces, including walls and ceilings in both residential and commercial spaces.
- **Health and Safety**
Eco friendly composition ensures a safe environment for homeowners and workers alike.
